

### Key Selling Points

#### Convenient

The DPA1's free App turns your compatible smart device into a manometer that is compact for quick and easy use, with the reliability of full sized manometers. The App named "dualpressure" is available on iOS® and Android™ platforms.

#### Fully Featured

The DPA1 offers the same benefits and features of a hand-held dual pressure manometer with negative, positive and differential pressure checks and professional accuracy, repeatability and response time.

#### User Defined Settings

The App allows users to select min/max, record, graph, log and email results. The user has the ability to choose parameters like 8 measuring units, the refresh rate, continuous or snap shot recording, number of samples and logging intervals.
